

A.P. Psychology Summer Homework

Directions: Your task is to write 2 paragraphs per field of psychology to help you categorize the different fields of psychology and the major players in each.

Your assignment will include the following fields of psychology;

- Biological: William James
- Psychodynamic/psychoanalytic: Sigmund Freud & Carl Jung
- Developmental : Jean Piaget
- Behavioral: John Watson, Ivan Pavlov, & B.F. Skinner
- Cognitive: Jean Piaget, Lev Vygotsky, & Jerome Bruner
- Evolutionary: Charles Darwin & David Buss
- Humanistic: Abraham Maslow & Carl Rogers
- Socio-Cultural: Solomon Ash

For each field of psychology you will need to include

- a description of field/ a summary of the belief within that field
- for each psychologist note what they did/how they contributed in the specified field
- an illustration that captures the belief of that field or an illustration that depicts a notable experiment in that field

Staple all papers together. NO POSTERS!!!!

You will need a bibliography to accompany your write-up. Please note all websites and books that you consult while gathering information. Citation is to be done in MLA format. If you do not know how to cite your work please do some research and look at the website *easybib* which will assist you in creating the actual citation.

The purpose of this assignment is to introduce you to the major fields of psychology that we will be looking at throughout the year. Our study will begin with a general introduction to all fields and as we progress we will be driving deeper into each.

This assignment will be due on Friday August 18th. Please do NOT attempt to turn in early.
